# CLARK'S SANITARIUM

Established by ASA CLARK, M. D., Medical Superintendent of the State Hospital at Stockton, Cal.

Clark's Sanitarium for care and treatment of mental and nervous diseases, is located in the southwestern part of the City of Stockton and is surrounded by pleasant grounds, containing forty acres. The buildings are two stories in height and cover an acre. Their sanitary condition is perfect. The corridors are wide, airy and light, affording the patients who cannot be trusted out in the grounds—and all others on wet days—ample room for exercise.

The appointments are modern and comfortable. The food supplies and cooking are of the best, the milk, butter, chickens and eggs being products of the place and abundant. Any patient may have a special attendant if necessary, at a moderate additional cost.

## Stearns' Serums Are Prepared Under Ideal Conditions

The horses are housed in a \$25,000 brick stable (a portion of which is shown in the above cut), provided with everything to make it perfectly sanitary and comfortable—steam heat, electric lights, perfect ventilation, cement floor, sanitary feed and water pails, iron stalls. A force of grooms exercise and care for the horses; keep the stable in order and flush it twice daily with hot water; an expert veterinarian is constantly in charge of this part of our biologic plant.

Our biologic laboratories are equally modern. No equipment is too expensive—no precaution too trivial—if it can in any way tend to improve our products. Our serums are of the highest quality, simply because this end is kept constantly in view at every stage of their production. **Stearns' Diphtheritic Antitoxin** prevents and cures diphtheria. **Streptolytic Serum** effectively combats the streptococcus. They have never been equalled.

Stearns' Serums are always put up in the best direct-injection package. **We devised and introduced the first serum syringe-package, and marketed it for nearly three years before any other house abandoned its antiquated serum container.** This is the **fact**—well-known and unchangeable—about the greatest advance in the history of American serum production.

# **Don't Experiment With Imitations**

OF

## **Mulford's Serum- Syringe**

### **For Administering Diphtheria Antitoxin**

You know Mulford's Antitoxin—what it has done and can be depended upon to do; and you know how surely imitations fall short of the original, because they haven't the creative spirit behind them that makes standards.

You know how we have stood, from the beginning, for better, and surer, and safer Antitoxin and methods of using it.

### **Facts**

- 1.—We were the first American firm to prepare a reliable Diphtheria Antitoxin.
- 2.—We were the first to offer Antitoxin of a high unit strength.
- 3.—We first protected absolutely the strength and efficiency of Antitoxin by dating each package, ensuring a reliable product.
- 4.—We originated the standardization of Antitoxin, so that each cubic centimeter of serum contained a fixed and definite number of Antitoxin units.
- 5.—We devised the first serum-syringe package for administering Antitoxin. Our Aseptic Glass Syringe was introduced in 1902, and has overcome every obstacle for the easy and prompt administration of Antitoxin. Air never comes in contact with the serum, nor is it possible to inject air into the patient.

**Every advance in the scientific production and method of administration of Antitoxin has been originated by us. We are the largest producers in the world.**

So, whenever an imitation of Mulford's Antitoxin and Syringe is offered, ask yourself: Will it do the work as surely? Is it thoroughly aseptic? Is an imitation ever as good as the original?

## Collargolum & Unguentum Credé

(Soluble Metallic Silver—Von Heyden.)

(15 per cent. Collargolum Ointment—Von Heyden.)

**Efficient but harmless blood and tissue disinfectants**, which have given brilliant results in almost hopeless puerperal sepsis, epidemic cerebrospinal meningitis, anthrax, septic endocarditis, etc. When rapid effects are necessary **COLLARGOLUM** should be intravenously injected; but ordinarily **UNGUENTUM CREDE** is most conveniently employed.

Recommended by **Profs. Roswell Park, A. Jacobi, F. Forchheimer, W. B. Dorsett, H. J. Boldt, C. G. Cumston, Tillmanns, Dieckerhoff, Wenckebach**, and many others.

## ORPHOL

(Betanaphthol-Bismuth—Von Heyden.)

**FOR PRACTICAL INTESTINAL ANTISEPSIS.**

A neutral, odorless and tasteless intestinal disinfectant and astringent, indicated in all gastro-enteric catarrhs, diarrhoeas, ptomaine poisonings, typhoid, etc.

## XEROFORM

(Tribromphenol-Bismuth—Von Heyden.)

A BLAND, ODORLESS SUBSTITUTE FOR IODOFORM, being a powerful antiseptic, deodorant, desiccant, sedative and hæmostatic. Internally, it is an efficient remedy for adult cases of diarrhoea, typhoid, intestinal tuberculosis, etc.

## CREOSOTAL and DUOTAL

(Creosote Carbonate—Von Heyden.)

(Guaiacol Carbonate—Von Heyden.)

**NON-TOXIC AND NON-IRRITANT SPECIFICS FOR TUBERCULOSIS, PNEUMONIA, ETC.**

**Duotal** is odorless and tasteless, while **Creosotal** is almost so. They never cause gastric disturbances, even in massive doses. In tuberculosis they stimulate the appetite, diminish or entirely obviate the characteristic symptoms, and produce a gain in weight.

WASHINGTON, D. C., January 21, 1902

DR. HENRY E. WAITE, Pres. Waite &amp; Bartlett Mfg. Co.

DEAR DOCTOR: After three months of capable, unprejudiced, exhaustive labor and research, the authorities at the Barnes Hospital, U. S. Soldiers' Home, Washington, D. C., have given us an order for the Waite & Bartlett Mfg. Co. Static Electrical Machine and X-Ray Outfit which has been on trial there in competition with the Van Houten & Ten Broeck's (Otis, Clapp & Co.) apparatus.

Crucial tests, which are absolutely impartial, were made during the period the machines were on trial, because it was the purpose of those in charge of the matter to buy the best apparatus obtainable.

Simultaneously with that trial, another investigation was in progress at the Children's Hospital in this city, where the same makes of apparatus were in full operation, and this institution also concluded that the Waite & Bartlett Mfg. Co. equipment was the best, and we likewise received their order for the complete outfit.

These orders are the outcome of painstaking investigation, and the victory of the Waite & Bartlett Mfg. Co. in both cases is one to be proud of, for their apparatus is thus stamped as the best now in the market, both for therapeutic purposes and X-Ray work.

Another fact to prove the excellence of the Waite & Bartlett Mfg. Co.'s apparatus is that there have been eleven of their Static Machines sold recently in Washington, the purchasers being as follows:

The U. S. Senate  
 Dr. F. E. Gibson  
 Dr. Robt. Reyburn  
 Dr. H. H. Hawxhurst  
 The Children's Hospital

Dr. Frances B. Bishop  
 Dr. Gustavus Werber  
 Dr. Wm. H. Bishop  
 The Barnes Hospital, U. S. Soldiers' Home  
 Dr. F. A. Gardner (two outfits)

The U. S. House of Representatives  
 Dr. C. H. Heron  
 Dr. H. Krogstad  
 Dr. Mary Alice Brosius

Yours very truly,  
 Z. D. GILMAN

N. B.—This is a copy of letter received by us from our agent at Washington, which speaks for itself.

Yours truly,
